

ROOF

ROOF

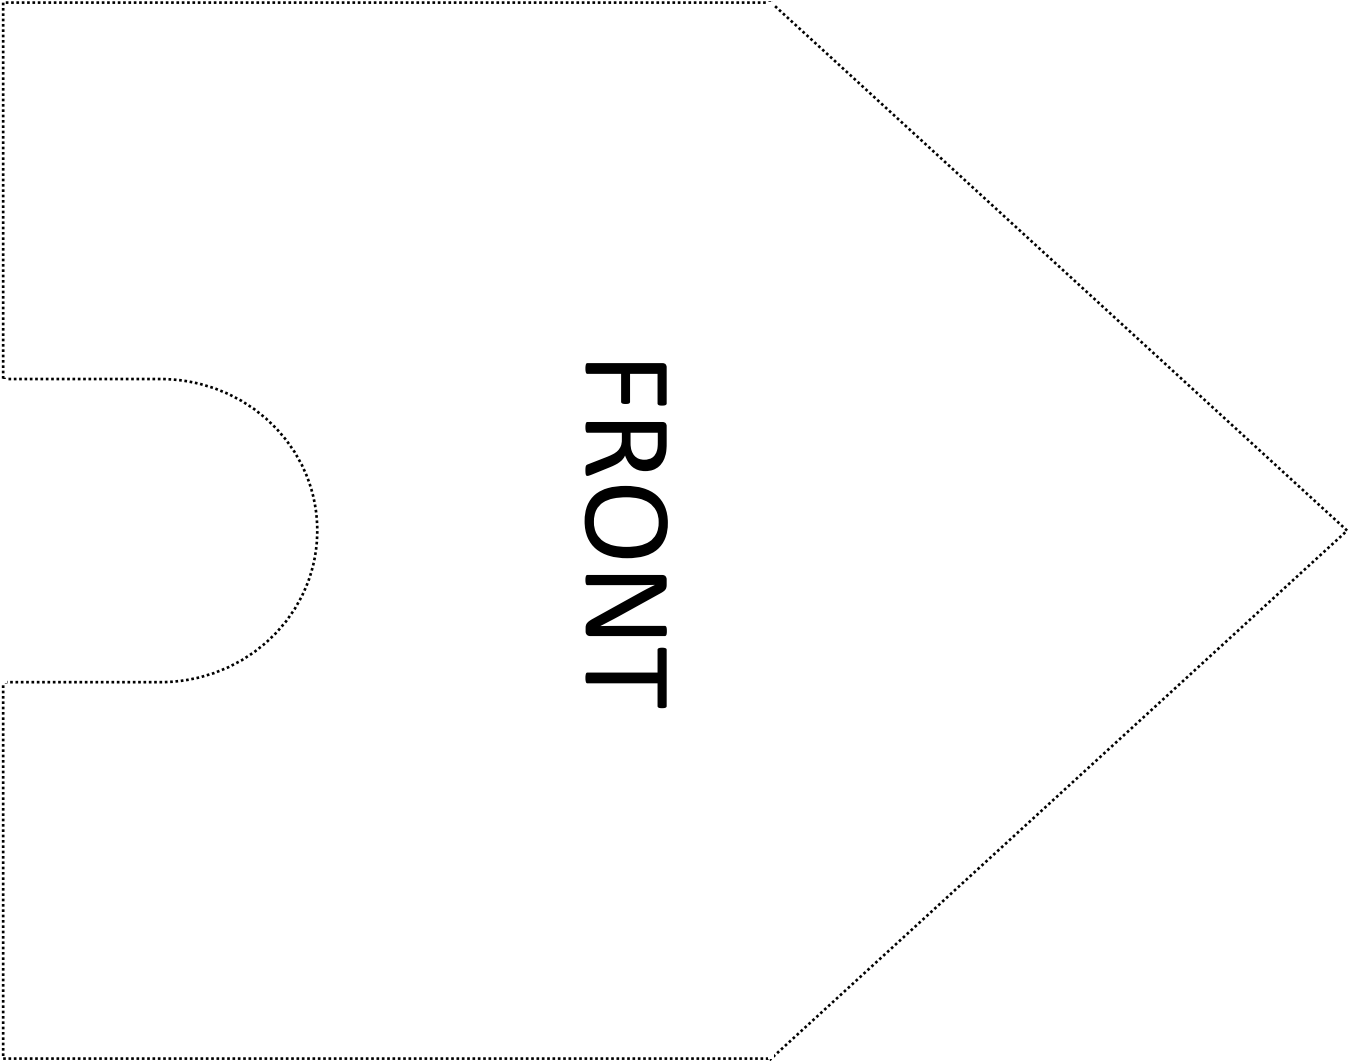

CHIMNEY

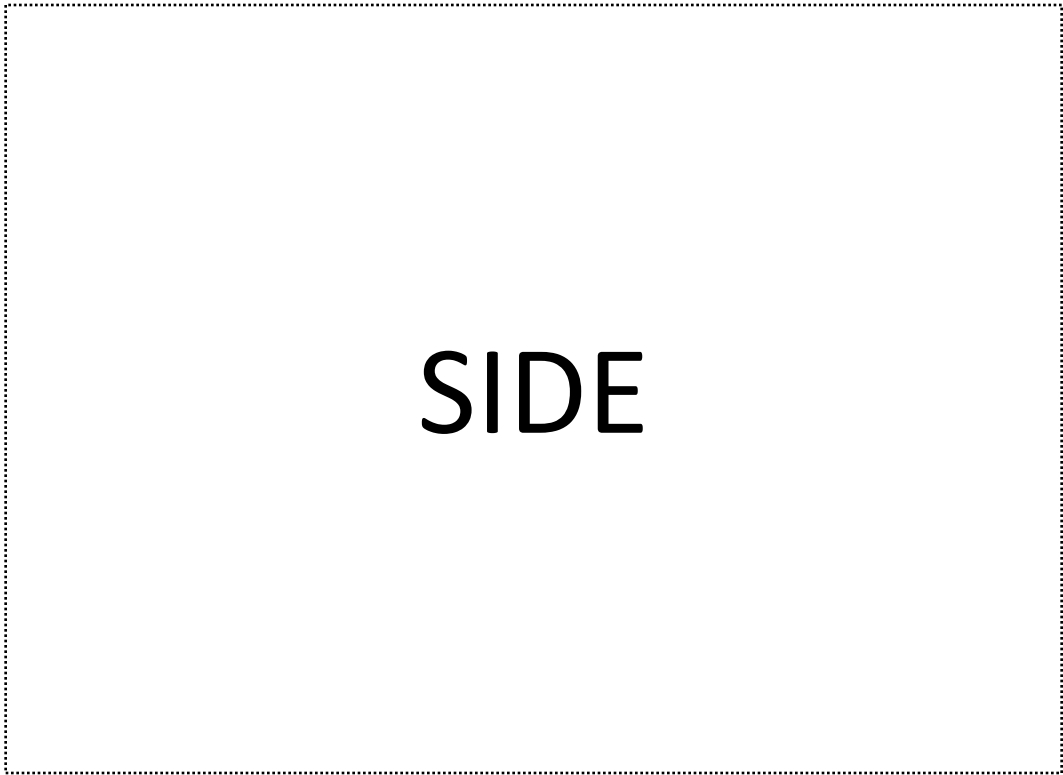

BACK

SIDE

FRONT

The front view of the house shows a symmetrical gabled roof with a chimney on the left side. The chimney is represented by a semi-circular shape on the left wall. The roof is a simple triangle meeting at a central peak. The walls are rectangular, and the overall shape is a house silhouette.

SIDE

The side view of the house is a simple rectangle, representing the profile of the house from the side. It shows the height and width of the structure without any roof or chimney details.
